

## 4 Star Mongolian U.P. Bow Hair

This is a widely sold brand of hair coming from the same factory in China and is recognised by its single red string around the base of the bundle, this hair has many names depending on who sells it.

As this is only SEMI PICKED hair, we find it would be ideal for a wide range of applications, and we advise the use in semi professional bows only.

This is a very good basic hair for its price, as we buy now directly from our Chinese suppliers, we can offer very competitive rates. Compare our prices with the competition.

Please note that ourselves being dressers and NOT merchants, we are able to monitor the quality and consistency at all times.
